Re: South Goshen Solar

Supervisor Bloomfield,

A full application package for South Goshen Solar was submitted to the Town of Goshen on January 24, 2019. On February 28, 2019 we presented the project to the Goshen Town Board. On June 6, 2019 we presented the project to the Goshen Planning Board.

Following on recent submittals we've made to the Planning Board we have requested placement of this application on the agenda for the August 15, 2019 Planning Board meeting. At that time we will request that a joint public hearing be scheduled for the September 5, 2019 Planning Board meeting.

We have submitted a similar letter request to the Planning Board with respect to coordinating a public hearing. We ask that the Town Board coordinate with the Planning Board to schedule a joint public hearing for September 5, 2019.

We appreciate your attention to this matter and look forward to further discussion of the project.

Sincerely,

Ryan Irwin
Project Developer
