Re: AI Turi Landfill
Proposed Cap Settlement Repair

Dear Ms. Shaw:

The Department has completed its review of the October 20, 2021 letter from Cornerstone Engineering submitted on behalf of AI Turi Landfill Inc. proposing a method for cap settlement repair. The Department approves the proposal under the following conditions.

1. An as-built of the repair area, sump, discharge point including any dissipation structures shall be submitted upon completion of the repair.
2. All soils shall be consistent with the original design specifications and shall fall below the Part 375 unrestricted SCO's. The soil shall also not contain any artifacts.
3. The certification shall, in addition to the standard requirements, include documentation of the source of all soils used in the repair.
4. An addendum to the PCMMM shall be provided with the certification.
5. A minimum of 5 days prior written notice shall be provided to the Department prior the start of construction or importation of soils, whichever is first.
6. Stormwater controls shall be maintained at all times.

If you have any questions, please feel free to contact me.

Sincerely,

David G. Pollock
Regional Solid Waste Engineer
